

Ode 39 of The Odes of Solomon

1 Great rivers are the power of the Lord:

Rivers of energy are the "great rivers" which are all power and the only power. Energy transmits information; incorrect or correct.

2 And they (*the rivers of power*) carry headlong those who despise Him: and entangle their paths:

*We may not **think** we "despise Him" but opposing His power with our thoughts and words has its effect.*

3 And they sweep away their fords, and catch their bodies and destroy their lives.

*Our bodies are formed by the vibration of thoughts and words and consist of energy or transmitted information. We are transmitters and receivers but the information we receive and therefore transmit is **false**; that of disease, lack, ill health, hate, ageing, decay and death, etc. It is in opposition to His True Word of life, health and harmony. Our bodies and lives are consequently destroyed by this power (energy) which is His "wrath" (Jhn 3:36).*

4 For they (*the rivers of energy*) are more swift than lightning and more rapid, and those who cross them in **faith** are not moved; 5 And those who walk on them without blemish shall not be afraid.

*Our **faith** crosses out the false, **incorrect** information. It cleanses us and makes us sons of God. Our faith comes from our thinking. It's a turning (repentance) in thought and word from the norm.*

6 For the sign in them is the Lord; and the sign is the way of those who cross in the name of the Lord;

Our "sign" is to take on the information that is the name and nature of the identity of Jesus Christ.

7 Put on, therefore the name of the Most High, and know Him and you shall cross without danger, for the rivers will be subject to you.

Putting on the Truth, Jesus Christ and crossing out incorrect information gives us power (the energy) which works with us not against us.

8 The Lord has bridged them by His word; and He walked and crossed them on foot:

By His understanding, His thoughts and His Word in alignment with the True Word of perfection He has made a bridge across the rivers of energy for us to follow Him on.

9 And His footsteps stand firm on the water, and are not injured; they are as firm as a tree that is truly set up.

His understanding and Word is firm and rooted in Truth.

10 And the waves were lifted up on this side and on that, but the footsteps of our Lord Messiah stand firm and are not obliterated and are not defaced.

His footsteps or understanding stand strong forever and like the Israelites that escaped captivity from the slavery of the Egyptians by following Moses, we follow Jesus Christ escaping slavery to world thinking. With waves on either side they passed on dry land right through the Red Sea, we too follow in His footsteps to escape the captivity of decay and death.

11 And a way has been appointed for those who cross after Him and for those who adhere to the course of faith in Him and worship His name. Hallelujah.
